### Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

#### Listing of Claims:

1. (Currently Amended) A portable desk comprising:  
a base defining a storage space;  
a top portion hingedly attached to the base and movable between an open position and a closed position;  
two legs positioned at opposing end portions of the base and pivotally connected to the base, each leg of the two legs pivotally movable between a retracted position and an extended position, each leg ~~having an outer surface forming a recessed portion in a center region of the outer surface, the recessed portion extending with respect to the base and forming a handle within each leg including opposing edge portions each having an arcuate shape, each opposing edge portion curving inwardly with respect to the portable desk and the arcuate shape corresponding to at least a portion of one of a first side wall and a second side wall of the base;~~ and  
at least one snap element locking each leg to the base in the extended position.

Serial No.: 10/655,825  
Amendment dated 12 July 2005  
Reply to Office Action mailed 13 May 2005

2. (Currently Amended) The portable desk of Claim 1 wherein the storage space has a plurality of compartments formed by at least one integrated support wall extending between ~~[[a]]~~ the first side wall of the base and ~~[[an]]~~ the opposing second side wall of the base.
3. (Original) The portable desk of Claim 1 wherein in the closed position, the top portion is positioned over the base and forms an integrated carry handle.
4. (Original) The portable desk of Claim 1 wherein the top portion further comprises a tab section interfering with a shoulder of the base, in the closed position.
5. (Original) The portable desk of Claim 1 wherein the top portion further comprises a top surface, and a wall extending about at least a portion of a periphery of the top surface.

Serial No.: 10/655,825  
Amendment dated 12 July 2005  
Reply to Office Action mailed 13 May 2005

6. (Original) The portable desk of Claim 1 wherein the top portion further comprises a top surface, a portion of the top surface forming a recessed storage void.
7. (Original) The portable desk of Claim 1 wherein each leg forms a storage compartment and a cover is pivotally connected to the leg and positioned with respect to the storage compartment.
8. (Original) The portable desk of Claim 1 wherein each of the at least one snap element comprises a tab formed on a bottom surface of the base and interfering with a support edge formed at an end portion of one of the legs in the extended position.
9. (Previously Presented) The portable desk of Claim 1 wherein each leg comprises an outer surface having a concave portion.
10. (Previously Presented) The portable desk of Claim 9 wherein the concave portion forms a handle within the leg.
